### **Brief Description of Work**

The work includes regrading approximately 500 feet of streambed in Gore Creek with multiple drop structures and scour protection for the existing streambanks and retaining wall.

The Project is expected to be partially funded by both the Town and the Eagle River Water and Sanitation District (“District”) and subject to an intergovernmental agreement between the two parties. The successful Bidder will be expected to cooperate with construction managers from both the Town and from the District throughout the Project, however, the Town will coordinate and supervise the Project, and will be the Owner as defined in the construction contract.
