The Daily Occupancy Report tracks occupancy on a daily level of granularity. The report combines the data sets of participating properties into a destination wide view that features three data sets (providing that sufficient information is available) including:

- i) current YTD occupancy,
- ii) last YTD occupancy,
- iii) last season's ending occupancy.

The Daily Outlook Report is generated on a monthly or twice-monthly basis, usually for a 12 month subscription period, and is created from data provided by a group of properties participating in a cooperative manner.

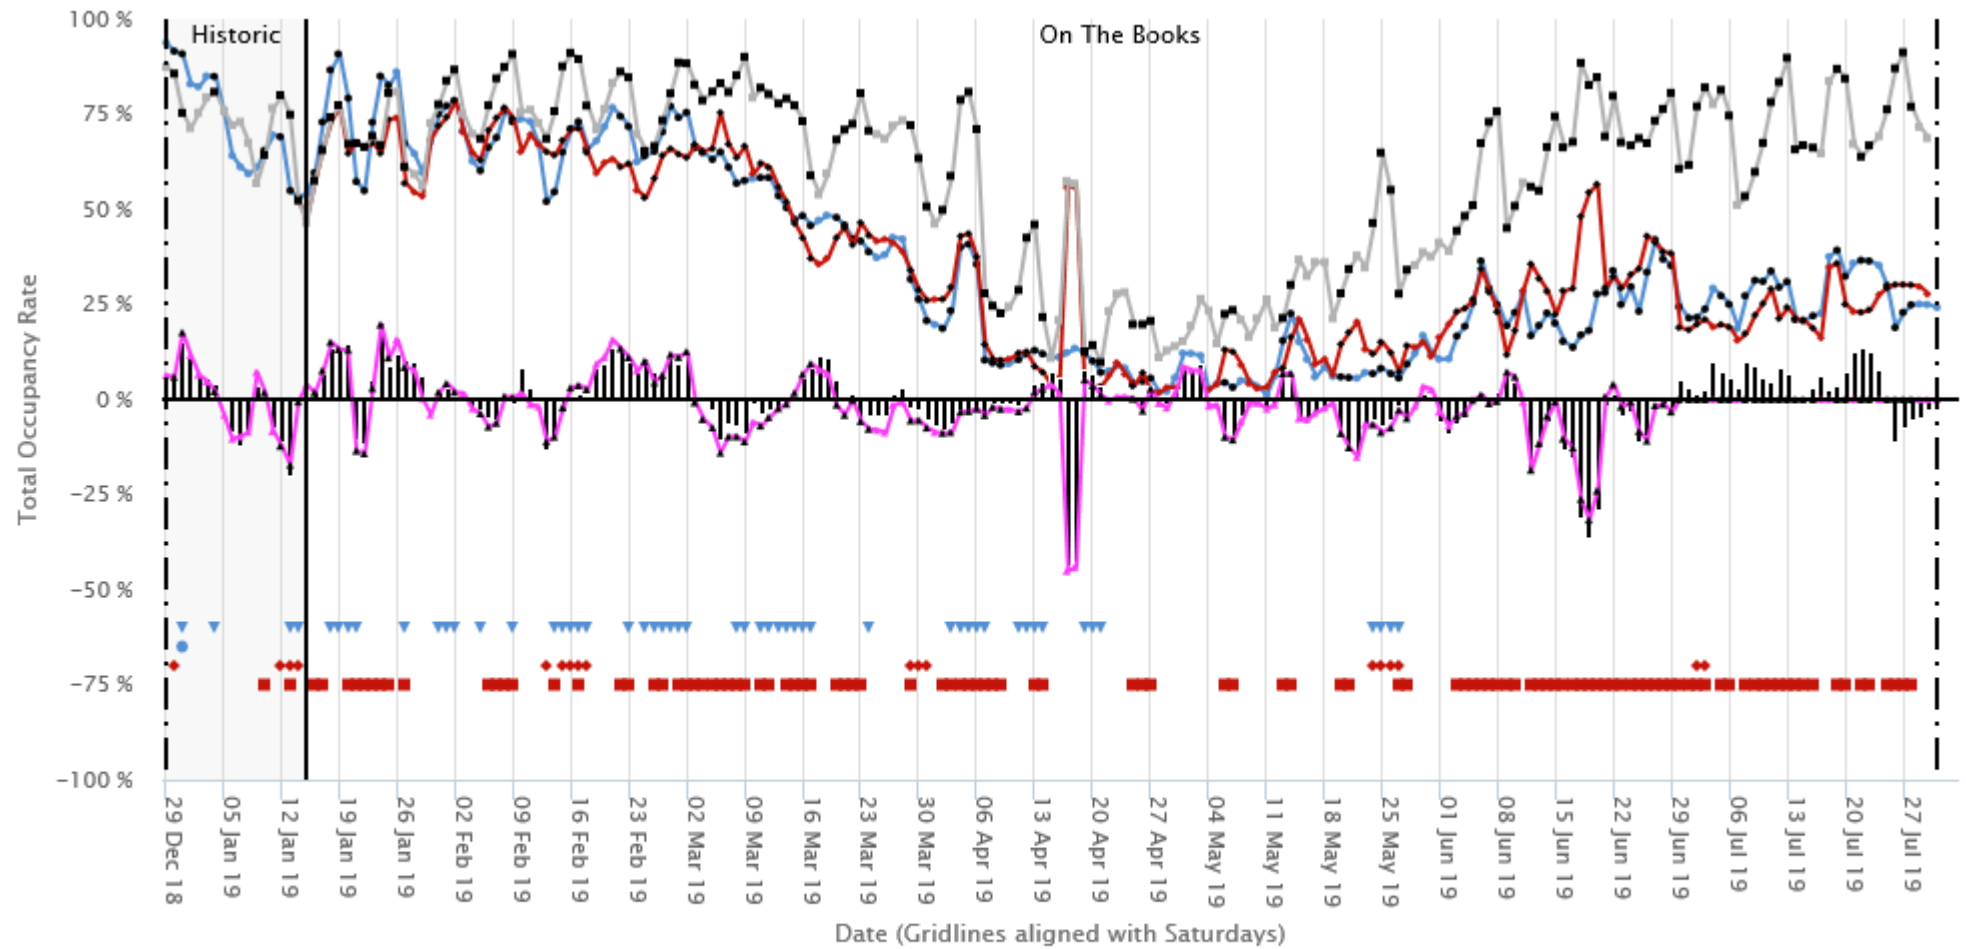

As is the case in all Inntopia data, all information provided by individual properties is strictly confidential, except when aggregated with other data and indistinguishable as a result.
